Finest Varieties**

LADY WAYNE

ADAMS GLAD FARM

3148 S. 12th St.

Terre Haute, Indiana

GREETINGS TO GLAD LOVERS

It is a real pleasure to send you this, our 1950 catalogue.

While the East simmered with intense heat and perhaps the greatest drought in history, we had an excess of rainfall in June and early July, extreme heat with little moisture in August and a perfect September. A season that gave us superb early blooms, splendid bulblet growth and an erratic performance of several varieties, that had performed so well in normal seasons. Our irrigation lines had to be used but very little.

We specialize in well grown quality bulbs. Every effort is made to send to you, young one year bulbs grown from bulblets, regardless of the size you order. Some varieties, as you know, just will not make large bulbs from bulblets. In that case, your order will be filled with large bulbs grown from No. 5 and 6's. of the previous year. We hand select the bulblets for you and send out no pinheads or exceedingly small bulblets. Some varieties, such as Patrician and Boise Belle, habitually make small bulblets, and we can but send you the largest bulblets possible.

This season we are listing several new varieties for friendly originators and co-introducers. A few of these varieties we have not seen or grown. But because some of the best judges of glads in our land, that have grown or seen them tell me that the varieties are outstanding or unusually good and wonderful performers, men whose word I have found to be as good as gold, I do not hesitate in recommending the varieties to you for your consideration. These growers assure me that I will receive quality bulbs and bulblets for you.

I do sincerely believe, that you will be offered no better new varieties, this season, by any grower or originator than Big Joe, La Valle, Chinook and Margaret Jean. Unusually strong vigorous growing varieties, good performers that can take extreme heat and adverse growing conditions and do well.

We are not large growers, that is we do not have a large acreage nor do we grow bulbs by the million. Each year we have had to cut down our acreage so that we could do all the work ourselves with but a minimum of hired help. Then too, we are no longer what one would call young, and we must regulate our plantings with our ability to look after and care for same.

We do not list hundreds of varieties. Because we value your friendship, we try to list no variety that we feel certain will disappoint you. Any list of several hundred varieties is certain to have such varieties. We quickly discard all varieties, regardless of value, that prove to be varieties—That are weak growers—poor health—those that crook badly—short growers—poor substance—weak attachment of florets and varieties that increase to slowly. We must have good performers as well as fine colors.

We do not believe in knocking a variety the first year it is grown by us. Some varieties are just not happy with us the first year, but prove to be grand in following years.

Although we have grown fine varieties for many years, we have seen but very very few varieties that easily open up eight florets at once. A

statement that a variety can, or is capable of opening up eight blooms at once is misleading. A child can, and is capable of growing seven foot tall but seldom does. A variety that opens up six or seven florets with several fine buds showing color is considered by all authorities as a very fine glad. This fact should be considered when you read descriptions of varieties, reputed to open eight or more blooms at once.

We can offer you no wholesale list. The high cost of labor in this vicinity makes this prohibitive. We just cannot compete with other growers that are more fortunate. We do have a large stock of some varieties. These we offer to you at wholesale, if at all possible. Surplus bulblets are also offered at wholesale. Early orders generally pick most of these up.

Do not ask or expect us to fill an order for less than three dollars. We lose money when we do so. Postal rates have increased along with most every thing else.

You will find us generous in filling your order, both with overcount and extra varieties that we believe will please you. We can promise you no overcount on bulbs or bulblets grown by others. We can but send you what the growers send to us.

Do not fail to dust or dip your bulbs prior to planting, regardless of where you obtain them, or if they are home grown. It is better to be safe than sorry. We have used and like the new dust called Arasan. This is a product of the DuPont people, somewhat similar to New Improved Seresan. Here in the middle West we obtain it from the Vaughn Seed Store, Chicago, Ill. The mess, work and uncertainty of weather conditions when using dips is eliminated and it is just as good. Only clean appearing bulbs should be planted. Bulblets should be cracked or shucked and because here in where most of our troubles start, only clean appearing bulblets should be planted without brown spots or veining. No dip or dust in commerce today will save your bulbs if your soil is infected with fusarium or other fungus diseases. You really are up against it when this happens. This soil cannot be used for several years and the disease spreads to adjacent soil. Heavy freezes does help in eliminating it, nothing else. A bit of work and patience at planting time, may save you heart aches and tons of work later. The buying of cheap bulbs from unreliable growers may be very very costly. The menace of fusarium has never been exaggerated.

We make every effort to be courteous with our customers, both real and prospective. We have aided many with their glad problems. Your order will be promptly acknowledged, and your letters will be answered as soon as possible.

Because we are human, you can expect us to make a few mistakes each season. These we will adjust to your complete satisfaction, if possible to do so. We have always found flower lovers, to be a wonderful class of people that are happy when they receive just what they expect and pay for. We feel that they are entitled to just that and nothing else.

May you and yours enjoy a wonderful 1950 season.

R. C. ADAMS

With the kind consent of Mr. N. H. Lines, originator of LaValle and Chinook, and Mr. Bruce Collins distributor of the Canadian varieties for the U.S.A., we offer you these four 500 class glads, reputed by well known authorities, to be unusually fine and very heat resistant.

BIG JOE—By L. W. Wilson, St. Marys, Ontario.

The large ruffled red that was the champion seedling at the Canadian National Show in 1949 against the stiffest of competition. A medium red with 20 to 22 buds that opens up 6 to 8 huge 6½ inch florets with as many buds showing color on a tall straight tough spike near 60 inches tall. It is a strong vigorous healthy grower that blooms even from bulblets, substance is very heavy and placement is excellent. Propagation and germination very good. It stood up like a Trojan in the intense heat of last July. A real addition to the red class.

Any Size Corm \$5.00, and with each corm purchased, you may purchase 10 bulblets at 50c each.

LA VALLE—By N. H. Lines.

A vigorous growing gorgeous beauty that can take it. A clear rich ruffled light cream with small orange throat marks. On a tall always straight spike with 20 to 22 buds, it opens 6 to 8 large 5½ inch florets with several buds showing color. Florets are so rich they immediately attract attention. A 507 class midseason variety. We consider this as one of the most outstanding glads of this past season. Increases well. "Tops" for the showroom and your garden.

Any size bulb \$3.00. Bulblets 10 for \$2.00.

MARGARET JEAN—By A. B. Ogilvie.

Frankly the best orange we have ever seen. Mr. Sidney Mode of Canada, one of the finest growers in the business, has grown it for three years, won numerous prizes with it and considers it as one of the greatest glads he has ever grown. In color it is a clear medium orange with a lighter throat, a self color about a shade deeper than Bittersweet. On a nice straight spike it opens up 6 to 8 large 5½ inch florets, with 5 buds showing color, substance is good, attachment and placement excellent. Propagation and germination very good. It certainly has our sanction.

Large \$3.00, Medium \$2.00, Small \$1.00. With each corm purchased you may have 10 Bulblets at 25c each.

CHINOOK—By N. H. Lines—532 class.

Pure rich clear salmon with no markings of any kind. Just pure salmon throughout. Grows nearly six foot tall, spike always straight. It is a wonderful sight to look down the row and see practically every spike the same height. Thirty inch or better flowerhead. Opens 5 to 7—6 inch florets with 5 or more buds in color. Production and germination good. Opens to the last bud when cut. Many have said it is one of the best introductions in years. A fine commercial and "tops" for the show room. Will not wilt or fade in the hottest weather.

Any size bulb \$3.00. Bulblets 10 for \$2.00.

We are listing two other varieties for Mr. Lines. Descriptions are his. Bulbs furnished will be from Bulblet stock. Mr. Bruce Collins, who grew these varieties this past season, states that they did have over eight florets open for him and that Mr. Lines is conservative in his descriptions. Rose Plume was near the color of a Gen. Jack rose and had 22 buds.

KEEFER—By N. H. Lines, 478 class.

A very deep blue, bordering on the purple some. Possibly the largest of the blues. Flecks some in hot weather, but still a great favorite with the people, especially the women folks. Produces extra long spikes. Will open 10—5 inch florets, with all the rest showing color. Produces the most beautiful buds ever, almost an indigo blue and like velvet. Makes grand bulbs that are almost round. Makes plenty of bulblets that germinate easily. It scored 80 in the R. I. Trial Gardens this year. Grows 5½ feet tall. Blooms in 70 days. A great exhibition Glad.

Large \$2.00, Medium \$1.50. Bulblets 10 for \$1.50.

ROSE PLUME—By N. H. Lines, 462 class.

Here is a complete break in color. Nothing just like it.. A very soft velvety rose that leans slightly to the red side of rose. No throat marks, but throat a bit lighter in color. When well grown it makes a massive spike with 10 or more 6 inch florets open, on an 18 bud spike. Has a glossy sheen that makes it very attractive. Blooms quiet early. Production and germination good. One you will love.

Any size bulb \$3.00, Bulblets 10 for \$2.00.

Glad authorities tell me that AMELIA is a dandy. A sure comer.

AMELIA—By L. W. Wilson.

A beautiful two toned rose red. Deep rose red at the edges, a lighter rose body. As beautiful in it's color as Wedgewood is in the lavender class. Ruffled and pointed petalled, about 50 inches tall, with a 20 inch flowerhead. 4 to 4½ inch floret. 20 buds with 6 to 8 open, 6 in color. A very unusual and unique color. One the ladies and florists will love. Increases fine.

Any size corm \$3.00, and with each corm purchased you may have 10 Bulblets at 25c each.

JUNE ROSE—By C. C. Marshall, Lancaster, Ontario.

Positively the earliest rose cutter in it's class. About the color of Rose Delight, but taller and better. A 65 day bloomer. Larger than Early Rose and a perfect early commercial.

Any size corm \$2.00. No bulblets this year.

DUCHESS—By Al Thiel, a well known large Detroit commercial grower.

A light creamy salmon, with yellow throat, on which is placed a small scarlet blotch, which lights it up and makes it a grand new color for the florist. 52" tall, 22" flowerhead, 6 to 8 open, 6 in color. 4½ inch florets. Early, a marvelous propagator, slightly ruffled, straight, perfect placement. As stately as a Duchess, and just as majestic in appearance.

Large \$3.00, Medium \$2.00, Small \$1.00. Bulblets 25c each.

EASTER MORN—By Mr. Barrett, Verdun, Quebec.

This is an early 70 day bloomer that cuts 100%. The only early heavily ruffled white we know of. A superb variety for all purposes. Will make a great commercial because it can be handled without damage. Grows near 50" tall, straight spike, 26 flowerhead, 20 to 22 buds, opens 6 to 8 5 to 5½ inch florets, several buds showing color. An excellent increaser. A grand variety.

Any size corm \$3.00, and with each corm purchased you may have 15 bulblets for 25c each.

ROYAL FLUSH—By Percy Barrett.

Considered by the Canadian authorities to be Mr. Barrett's finest introduction to date, one states "Great achievement and advancement has been accomplished in reds with the coming of the new Royal Flush. It is a ruffled medium dark red, near the color of Red Charm. Reputed to open 8 to 10 florets at once, with nearly as many buds showing color. Blooms are 5 to 5½ inches in size. A late bloomer. Has a flowerhead of 30" with 22 to 24 buds. Grows tall on a fine straight spike around 60". Stock is limited, no bulblets are offered and this years price will be maintained next season.

Corms \$5.00 each.

DAYBREAK—By J. W. Harris—Originator of Florence Nightingale.

A beautiful cream and buff combination. One of the finest in it's color. A very delicate pastel. General effect is buff. 56 inches tall, 22 inch flowerhead, 6 to 8 open, 6 in color, 4½ to 5 inch florets. 80 day bloomer. Good propagator. Truly a marvelous florist's glad. One you will love.

Large \$3.00, Medium \$2.00, Small \$1.00 and with each corm, you may have Ten Bulblets at 25c each.

From Holland, we offer you two new varieties, that received an "A" rating at the West Virginia Trial Gardens. Both of these are vigorous growers. Bulblets germinated near 90%, made fine growth and several bloomed, making many medium bulbs mostly No. 3s. One is said to be an improved Mansoor that does not fade, larger also. The other is said to be an improved Paul Rubens, but to us the color is much darker, with no magenta. The violet purple blooms have a pleasing color. We do believe these to be good.

MARSHAL MONTGOMERY—Class 554.

Very dark maroon red with deep orange shading, very glossy, "just velvet." Enormous large florets, slightly ruffled and well formed. Texture is heavy. A tall straight and perfectly formed spike of eighteen buds of which 6 to 7 open at once. Outstanding and the best in this color.

**Medium \$1.00, Small 50c, Bulblets 15 for \$1.00, or
2 Medium, 2 Small, 20 Bulblets for \$3.50.**

MEMORIAL DAY—Class 576 or 570.

The brightest and most brilliant purple violet. Florets have a narrow distinct lighter stripe on lower petals, which makes it even more beautiful.

Enormous florets, slightly ruffled and perfectly formed. Spikes are long, perfectly formed, and straight with 18 buds that open 6 to eight at a time. Said to be the most outstanding and best in this color. Reputed to be a wonderful variety and an aristocrat among glads.

**Medium 75c, Small 50c, Bulblets 12 for \$1.00, or
Two Medium, Two Small and 20 Bulblets for \$3.00.**

Citation, Lady Wayne and Opechee, 1948 and '49 introductions, gave us top performance this past season. We were enthused with them and do believe you will be also. Lady Wayne is a grand show room variety and a wonderful commercial also. It opens well from tight buds, is a fine keeper, and right down the rows the spikes are all uniform in height. Citation and Opechee are also good commercial prospects.

CITATION—By W. A. Beaton—Class 542.

We consider this to be one of the best of the 1949 introductions. Height, fine performance, strong vigorous growth, size and color appeal, all there. Even the bulblets often produce fine blooms. In color, it is an attractive clear geranium pink blending to a creamy white throat. Spikes are shoulder high with no weakness or crooking. With a 28 to 30 inch flowerhead of 18 to 20 bulbs, it opens up 5 to 7—5¾ to 6¼ inch florets, with strong attachment, good placement and substance. Bulblet production and germination very good. A real variety for all glad fans.

**Each Large \$2.00, Medium \$1.50, Small \$1.00, Bulblets 10 for \$2.00.
10 Large \$16.00, Medium \$12.00, Small \$8.00, Bulblets 100 for \$10.00.**

LADY WAYNE—By Harry Deam, Class 530.

One of the very best of the 1948 introductions. The precision placement of florets, and fine color will appeal to all. Certainly a fine vigorous grower and a real beauty. A rich pure salmon pink a shade deeper than Picardy, with slight throat markings of a deeper shade. Six to eight florets open at once, wide open and in good condition out of the 18 to 20 buds. Spike is tall and straight. Florets are firmly attached and can really take rough handling. We have a nice stock of this and can quote at wholesale. Attractive price saving units are also offered.

**Each Large \$1.00, Medium 75c, Small 50c, Bulblets 12 for \$1.00.
10—Large \$8.00, Medium \$6.00, Small \$4.00, Bulblets 100 for \$5.00.**

**For \$5.00 you may have—one large, four medium, five small and 25 bulblets.
For \$10.00 you may have one large, 5 medium, ten small and 100 bulblets.
Wholesale per 100 Large \$64.00, Medium \$48.00, Small \$32.00.**

Bulblets ½ pint \$25.00, pint \$40.00, quart \$75.00.

Five bulbs may be had at the 10 rate.

OPECHEE—Harry Deam 1949.

Midseason. A swell smoky that certainly appeals to us and the florists. It's good. A smoky old rose with lavender overlay, small carmine feather on lower petals. Opens 6 to 8 nicely formed 5 inch florets on a tall straight spike. Plain petals with no clashing colors. Best of placement and attach-

ment. A heavy increaser. You will like it, if you like smokies, and probably will anyhow.

Large Each, \$1.50, Medium \$1.25, Small \$1.00, Bulblets 12 for \$1.50.

Large per 10—\$12.00, Medium \$10.00, Small \$8.00, Bulblets per 100—\$7.50.

Five may be had at the 10 rate.

Per 100—Large \$96.00, Medium \$80.00, Small \$64.00.

Bulblets ½ pint \$45.00, pint \$80.00, quart \$150.00.

GENERAL LIST

WHITE AND CREAM

LEADING LADY—Midseason cream sport of Picardy. The No. 1 glad in all of Canada and the United States today. Has won more grand champion honors at the shows than any known variety except Picardy, and is the greatest white commercial in commerce today. Wonderful performance and dependability have made it such. Slowly but surely it is reverting back to Picardy. The biggest glad buy for your dollar today.

Large 2 for 25c, Medium 4 for 25c Small 10 for 25c Bulblets 35 for 25c.

Large 10 for \$1.00 Medium 10 for 50c Small 10 for 25c Bulblets 100 for 50c.

FLORENCE NIGHTINGALE—The only white in sight that is likely to replace Leading Lady. It is pure white, It appears to be just as vigorous, a grower, grows extremely tall, has a 32 to 36 inch flowerhead, it's slightly ruffled, opens 6 to 8 lovely well formed florets out of the 21 buds. The 5½ inch florets are firmly attached. Placement and substance very good. Increases heavily.

Large 75c 10 for \$6.00, Medium 50c, 10 for \$4.00, Small 30c, 10 for \$2.40, Bulblets 10 for 65c, 100 for \$5.00.

WHITE GODDESS—Roberts—Midseason.—The greatest and best large ruffled glad in commerce today. The individual floret is not as lovely as White Christmas, but in most parts of the country it's performance is much better. Large bulbs do not split, the tall height is dependable, and propagation and germination is very very good. It is a vigorous grower and blooms from all bulbs. Grows very tall, has a long flower head of near 24 buds that open up 6 to 8 well placed florets near 6" size. Color is clear white shading to a cream throat. The ruffling is exquisite.

Large 75c, Medium 60c Small 40c, Bulblets 10 for 60c, 100 for \$4.00. 10 at 8 times the single rate.

EASTER PARADE—Mrs. Briggs 1949—A very early blooming variety. White blending to a cream throat. Maid of Orleans in size and color. The 5 to 7 florets that open are placed one above another. Five inches in size. It appears to be a very vigorous healthy grower, blooms from all sizes and makes a tall straight spike. Substance and attachment is all that you would desire. Propagation very heavy, germination 100%, growth splendid. A real addition to the early commercial class.

Large 40c, Medium 30c, Small 20c, Bulblets 10 for 35c, 25 for 75c, 100 for \$2.00, 1000 for \$10.00.

ORIENTAL PEARL—Midseason. The largest of all cream varieties. Florets are from 5½ to 7 inches in size. Opens but 4 to 5 at once on a fine spike. Each spike a bouquet by itself. Old Ivory in color. Increases very good. Very fine for the home garden.

Large 20c, 10 for \$1.60, Medium 15c, 10 for \$1.20, Small 10 for 75c, Bulblets 50 for 25c.

YELLOW, BUFF AND APRICOT

PERDITA—Grout, Class 413—Midseason—Rich yellow with scarlet throat darts. A strong vigorous grower that gives good performance. Because it opens so many precisely placed florets at once, it is in big demand by all show room fans. 8 to 10 florets open at once, with 6 or 7 showing color out of 20 buds. All stock of this is furnished by the originator.

Large \$2.00, 5 for \$8.00, Medium \$1.50, 5 for \$6.00, Small \$1.25, 5 for \$5.00, Bulblets 10 for \$2.00, 100 for \$16.00.

GOLDEN ARROW—Clear light primrose yellow, no markings or trace of other color whatever. The best mid season cutter. The sparkling clear color captivates all. The 48 inch spikes are always straight. 5 to 7 open at once, 5" in size. Multiplies rapidly. Large bulbs split badly and excess shoots must be pulled out. A fine vigorous grower that does not sunburn.

Large 25c 5 for \$1.00, Medium 15c, 5 for 50c, Small 10 for 50c, Bulblets 25 for 50c.

SPOTLIGHT—The most outstanding yellow of recent years. Fine for all purposes. Bright yellow with small feather of scarlet on lower petals. One of our most vigorous growers, reliable in it's performance. Five to six large blooms open at once on a tall straight spike.

Large 10c, 12 for \$1.00, Medium 12 for 75c, Small 12 for 50c, Bulblets 50 for 25c.

SUNSPOT—Roberts, Class 417, Midseason.—This gorgeous beauty has been a sensational show winner the past few years. Liked and desired by all. Ranks right at the top of most lists. A ruffled light apricot buff with small rose spot in throat. Performance is "tops." Readily opens 6 to 8 fine 5 inch florets on a tall straight spike. Produces many bulblets that germinate easily.

Large 75c, 5 for \$3.00, Medium 50c, 5 for \$2.00, Small 25c, 10 for \$1.50. Bulblets 10 for 50c, 25 for \$1.00, 100 for \$3.00.

RIALGAR—Australia, Midseason.—Pleasing autumn shades of Apricot, buff and yellow. A tall fine vigorous grower. Six or seven large 5 to 5½ inch blooms open at once. Substance, attachment and placement very good. Increase heavy. Unusually fine in near normal season but crooks in extreme heat.

Large 40c, Medium 25c, 6 for \$1.00, Small 15c, 6 for 50c. Bulblets 25 for \$1.00.

LAVENDER

ADORATION—Klein, Class 466.—An early variety. One of the most beautiful of all pastels. Cream heavily flushed with orchid lavender. A perfect blend. Six or seven 5" perfectly placed florets open at once on a fine tall straight spike with a long flowerhead. Propagates like wild fire. Germination near 100%. Performance the best. Fine blooms are obtained from all bulb sizes. A vigorous reliable grower that will please the most critical. A coming cut flower variety that will be in heavy demand. Well liked by the florists and all who have seen it.

Large 75c, Medium 50c, Small 35c Bulblets 10 for 60c, 25 for \$1.25, 100 for \$3.50, 1000 for \$20.00.

PATRICIAN—Scheer, Midseason.—A dream in blue lavender. A self color. Nearest of all to Minuet in color. The most talked about variety of the past two seasons, because of its sensation color. It readily opens 5 to 7 large 5 to 5½ inch florets that are round, wide open and perfectly placed, with starchy substance. Spikes are tall and we have yet to see a crook. It is a vigorous grower that produces a tremendous amount of small bulblets that germinate near 100% making mostly small bulbs.

Large \$3.00, Medium \$2.00, Small \$1.00, 6 for \$4.00, Bulblets 10 for \$2.00. 25 for \$3.00, 100 for \$10.00.

For \$5.00 you may have 2 Medium, 3 Small and 15 Bulblets.

For \$3.00 you may have 1 Medium, 1 Small and 10 Bulblets.

SIBONEY—Allen, 566 Class—Midseason.—The lavender sensation at several shows this past season. Florists adore it and you will too. A different shade of lavender than Patrician, being more on the rose side, nor is the substance of the florets as heavy as that variety. It produced wonderfully fine spikes during the extreme heat, that did not sunburn. One of our favorites. The large mammoth florets open up six or seven out of 19 to 21 buds on a spike, that did not crook, 48 to 35 inches in height. A rapid increaser, and bulblets make fine growth. Attachment was unusually good.

Large \$1.50, Medium \$1.00, Small 50c, Bulblets 10 for 75c, 25 for \$1.50, 100 for \$8.00.

For \$5.00 you may have 2 Medium, 5 Small and 25 Bulblets..

WEDGEWOOD—Fischer, Class 366, Early.—The darling of the glad kingdom. This alluring siren although only four inches in size has won the admiration of all glad growers because of its fine color and gorgeous beauty. A blue lavender and cream waxy gem, that is nicely ruffled. Florets are placed one above the other and open from 4 to 6 at once. Like Susannah it is ideal for that table vase.

Large 35c, Medium 25c, Small 15c Bulblets 10 for 25c, 100 for \$2.00.

LIGHT PINK

PHANTOM BEAUTY—Bastain Class 440, Midseason.—This very light pink, described as the color of a blushing bride and the answer to a florist's prayer, has brought forth more exclamation of delight from those who have grown it than most varieties of recent introduction. Precision placement, fine attachment and its ability to open 8 to 10 five inch florets at once with

a long flowerhead of 20 to 24 buds makes it one of our best show room varieties. It's ability to withstand heat should assure it a place in any garden.

Large 50c, 10 for \$4.00, Medium 35c, 10 for \$2.75, Small 20c, 10 for \$1.50, Bulblets 10 for 35c, 25 for 75c, 100 for \$3.00.

BEAUTY'S BLUSH—Fischer, 440, Midseason.—Certainly well named. Our lightest colored pink. The large saucer like florets are a lovely blend of baby face pink and cream. The more you look at this variety the better you will like it. No glad will excell it for performance. It is consistent in producing quality blooms even from small bulbs. The 18 to 20 buds on a tall straight spike open six to eight precisely placed florets at once, that have lots of sparkle. It increases nicely. Destined to be a great commercial.

Large 20c, 10 for \$1.50, Medium 15c, 10 for \$1.00, Small 15 for 75c. Bulblets 15 for 25c, 100 for \$1.00, 500 for \$4.00.

TRUE LOVE—Klein, Early.—A honey, one of the best for early quality blooms. In color, it is rich light shell pink. The precision placed florets are 5" in size, lightly ruffled and several open at once on a straight spike of better than medium height. Certainly a dependable, likeable variety.

Large 15c, 10 for \$1.00, Medium 5 for 30c, Small 10 for 25c, Bulblets 50 for 25c.

SUSANNAH—Midseason.—One of the most beautiful of all glads. The coloring is exquisite. The florets are heavily ruffled, bright shell pink at the edges quickly blending into a large snow white throat. The 4½ inch florets open up 4 to 6 at once on a spike of medium height. For that table bouquet or for corsages it is unexcelled.

Large 15c, 6 for 75c, Medium 10c, 10 for 75c, Small 12 for 50c. Bulblets 50 for 75c.

MISS VERMONT—A ruffled light tinted lavender. A beautiful unusual color. The florets 4½ inches in size open 6 to 8 on a 48 inch spike. A consistent dependable bloomer from all bulb sizes. One of the better varieties of yesterday.

Large 15c, 10 for \$1.20, Medium 10 for 80c, Small 12 for 50c. Bulblets 50 for 30c.

PINK

HEART'S DESIRE—Class 540, Midseason.—One of the most outstanding and desirable of the recent introductions. Class, class and more class. "Tops" for the show room, the florist and your garden. One of those tall, large vigorous growing varieties that entrance one. Ruffled pure pink, blending to white with warm yellow throat, raised heavy midribs. The florets are near 6" in size, and open 5 to 7 out of 20 buds on a tall straight spike. Substance, placement and attachment excellent. Propagation and germination excellent. One of our favorites that will not disappoint you.

Large \$1.25, Medium \$1.00, 6 for \$4.00, Small 75c, 6 for \$3.00. Bulblets 10 for \$1.00, 25 for \$2.00. For \$5.00 you may have 3 Medium, 3 Small and 25 Bulblets.

SPIC AND SPAN—Carlson, Class 432, Midseason.—A new glad that is making friends rapidly. The large lightly ruffled florets are deep pink in color. The tall straight spike with it's 22 buds open up 6 to 9 florets at once with 5 showing color. A consistant bloomer from all bulb sizes and a rapid propagater. As spectacular in appearance as it is in performance.

Large 80c, Medium 70c, Small 50c, 5 for \$2.00.
Bulblets 10 for 60c, 100 for \$5.00.

CONNECTICUT YANKEE—Schenetsky, Class 441, Midseason.—This sensational variety is a large blush pink with a small attractive scarlet throat blotch. It opens a double row of 6 to 10 precisely placed florets at once with good attachment. Each spike is a bouquet by itself. A gorgeous sight of stunning beauty. Bulbs produce but few bulblets. Bulblets germinate near 100% and make fine growth and many bulblets. It is economical to buy bulblets.

Large 50c, Medium 35c, 5 for \$1.00, Small 20c, 10 for \$1.50.
Bulblets 10 for 25c, 100 for \$2.00.

ROSE

EVANGELINE—Palmer, Class 560, Midseason.—Possibly the most vigorous growing variety in commerce, either from bulbs or bulblets. It will make the tallest and most sensational spike in your garden. Only one fault we have found, and under normal weather conditions we do not find this, a percentage of the florets will misplace. But for this it would be near a 100% variety as it has all the attributes a good glad should have. It is a very beautiful light rose pink with a creamy yellow throat. It opens 6 to 9 huge beautifully ruffled florets out of 20 to 22 buds. It produces a nice amount of bulblets that germinate near 100%, and make fine growth.

Large \$2.00, 5 for \$8.00, Medium \$1.25, 5 for \$4.00, Small 75c, 5 for \$3.00.
Bulblets 10 for \$1.25, 25 for \$2.50, 100 for \$10.00.
For \$5.00 you may have 3 Medium, 3 Small and 25 Bulblets.
All bulbs grown from bulblets.

PROSPERITY—Midseason.—Ruffled rose pink sport of Picardy. Very large blooms of gorgeous color and form, that brings exclamations of delight from those that see it characterize this variety. A fine light rose that beautifully blends to a cream throat. It has been a fine performer in it's growth and production of fine blooms for us.

Large 50c, 5 for \$2.00, Medium 35c, 5 for \$1.25, Small 25c, 6 for \$1.00.
Bulblets 10 for 25c, 25 for 50c, 100 for \$1.75.

MISS WISCONSIN—Krueger, Class 460, Midseason.—Rich medium rose pink. The only variety of this shade of rose in existence. A color greatly admired and desired by all glad growers. It opens 6 or 7, five inch florets on a fine spike that is always straight. The production of bulblets is but fair. Germination very good and growth the best if planted early. One of the most sought after varieties.

Large 20c, 10 for \$1.60, Medium 15c, 10 for \$1.20, Small 10c, 15 for \$1.00.
Bulblets 15 for 25c, 50 for 75c, 100 for \$1.25.

ROSY TORCH—Rich, Class 462-82 day bloomer. Rich medium fuschia rose, about a shade darker than Miss Wisconsin. Nice tall straight spikes with 5 to 7 nicely shaped florets open at once. It is a vigorous fine grower, and one of the very best for cut flowers. One of our favorites, that we think you will admire also, because of its cheery color and fine qualities. Increases fine.

Large 30c, 5 for \$1.20, Medium 20c, 5 for 75c, Small 10c, 6 for 50c.

Bulblets 10 for 20c, 30 for 50c, 100 for \$1.50.

MISS CHICAGO—Buckheit-Krueger, Class 560, Midseason.—A variety that certainly has a fine color. Mr. Krueger describes this as rose with a lavender cast and with an inverted yellow crescent and as appealing to both florists and glad fans. It opens 8 or more giant florets at one time on good spikes with 20 to 24 inch flower head which carries 18 to 20 buds. A conservative producer of bulblets which germinate well. Bulblets did well for us and made a nice amount of bulblets from bulbs dug.

Large \$4.00, Medium \$3.00, Small \$2.00, Bulblets 10 for \$2.50, 25 for \$5.00.

GENERAL EISENHAUER—Holland, Class 560, Midseason.—About one shade lighter than Miss Wisconsin A clear brilliant begonia rose that attracts. One of the best from Holland. A strong fine vigorous grower from all bulb sizes and bulblets. The tall straight spikes are near 5 feet tall. 4 to 6 huge blooms near six inches in size open at one. A heavy producer of bulblets than germinate near 100%. One for the commercial grower, show fan and for your garden. Just mark this a "must have." You won't regret it.

Medium 15c, 10 for \$1.00, Small 10c, 12 for 75c, Bulblets 50 for 30c, 200 for \$1.00.

PERSONALITY—Class 540 Midseason.—Here we have one of the giants of the glad kingdom. The very large blooms six to seven inches in size open up 5 to 7 at once on a very tall straight spike. It certainly is a robust grower. It has that different color, a subdued shade of rose or rosy salmon.

Large 40c, 5 for \$1.60, Medium 30c, 5 for \$1.20, Small 20c, 5 for 80c.

Bulblets 10 for 25c, 100 for \$2.00.

TIVOLI—A Hollander, Class 460, Midseason.—One of the best and most beautiful varieties to come from Europe. A vigorous grower that produces exceptionally fine blooms from all bulb sizes. Clear light rose in color. Opens 6 to 9 well placed five inch florets that are nicely attached on a straight 48 inch spike. Very popular with all who see or grow it.

Large 25c, 5 for \$1.00, Medium 20c, 5 for 80c, Small 15c, 5 for 50c.

Bulblets 10 for 25c, 50 for \$1.00.

TRALEE—Krueger, Class 460, 80 day bloomer.—A nice light rose pink that should make an excellent cut flower variety, as it comes on when no blooms of this color are to be had. Fine for basket work. 6 or 7 lightly

ruffled florets open at once on good spikes. Increases nicely. Mr. Krueger considers this as one of his best introductions.

**Large \$1.00, 5 for \$4.00, Medium 75c, 5 for \$3.00, Small 50c, 5 for \$2.00.
Bulblets 10 for 75c, 25 for \$1.50, 100 for \$3.00.**

PURPLE

LANCASTER—Pelmer, Class 470-85 day bloomer.—Our choice of the best purple to be had today. A bright brilliant true purple that adds cheer to your garden. We like it for its rich depth of color. You'll love it. It easily opens 6 to 9 lightly waved and ruffled blooms on a tall straight spike. A fine vigorous grower for us. "Tops" for the show room. Increases nicely. Bulblets somewhat small.

**Large 25c, 5 for \$1.00, Medium 20c, 5 for 80c, Small 6 for 50c,
Bulblets 25 for 25c.**

RED

RED WING—Wright, Class 436, Midseason.—This variety has been our best exhibition red since it's introduction. A self colored scarlet with a small feather shaped marking deep in the throat. Florets are slightly ruffled at the edge and are near 5½ inches in size. Has a flowerhead of near 30 inches with 19 to 22 buds, that open 6 to 9 at once with several in color on a straight spike near 5 feet in height. A nice increaser.

**Large \$2.50, 5 for \$10.00, Medium \$1.75, 5 for \$7.00, Small \$1.00, 5 for \$3.00.
Bulblets 10 for \$2.00, 25 for \$4.00.**

MRS. R. G. ERREY—Errey, 554, Midseason.—Because of the tall spike it produces, it's fine vigorous growth and likeable qualities this is probably the most outstanding black red in commerce today. A larger greatly improved Black Opal for us. A clear dark color with a sheen. The large 5½ inch florets open 6 or 7 at once are round, well placed and well attached. Took the hot weather like a Trojan. Spikes should be staked for that show room bloom.

**Large \$1.00, 5 for \$4.00, Medium 75c, 5 for \$3.00, Small 50c, 5 for \$2.00.
Bulblets 10 for 75c, 25 for \$1.50, 100 for \$5.00.**

ALL GLORY—Toon, 423 Class, Midseason.—This is one of our favorites. We consider it an outstanding variety and one of the best of the recent introductions. We have yet to see the person that did not like it's gorgeous color which is unusual and very attractive. Rich tangerine orange with a striking purple blotch. Almost an orange scarlet. Blooms from all bulb sizes and bulblets. A vigorous healthy grower. We have yet to see a crooked spike. Spikes are tall. Six to eight well placed florets open at once with the best attachment. Propagation and germination excellent.

**Large 50c, 5 for \$2.00, Medium 35c, 5 for \$1.40,
Bulblets 10 for 30c, 30 for 75c, 100 for \$2.00.**

ROYAL WINDSOR—Beaton, Class 450 or 550, 80 day bloomer. Lovely clear light scarlet red. This variety can make the largest percentage of near perfect spikes of any red we have grown, a small percentage had short flowerheads. A color in heavy demand by the florists because it blends more readily with other colors than deeper reds. The show room fan is beginning to take notice of it also. The 48 to 52 inch straight spikes have around 19 buds that open 6 or more florets often over five inches in size. We really like it.

Large 40c, 10 for \$3.20, Medium 30c, 10 for \$2.40, Small 20c, 10 for \$1.60. Bulblets 10 for 35c, 100 for \$3.00.

WHOLESALE Per 100

No. 1	No. 2	No. 3	No. 4	No. 5	No. 6
\$24.00,	\$20.00,	\$16.00,	\$12.00,	\$10.00,	\$8.00

Bulblets ½ pint \$10.00, Quart \$30.00.

DIEPPE—Hassel, Class 412, Midseason.—The large fine blooms of this richly colored salmon red attracts the attention of every glad lover. We believe this to be one of the greatest glads ever originated. Opens 6 to 9 beautifully frilled florets at once on tall straight spikes, near 5 inches in size, nicely placed and with good attachment. Increases rapidly.

Large 15c, 5 for 75c, Medium 10c, 5 for 50c, Small 10 for 50c, Bulblets 35 for 35c.
